## CAUTION

We have selected a non-woven, washable and slightly glossier paper. We use water-based latex inks, which are certified for their low environmental impact.

Due to the washable characteristics of this paper, a few precautionary pieces of information are required:

1. How to prevent your paper from shining:

We recommend you use a smoothing brush carefully and work primarily with your hands for a softer touch. This will allow you to get a feel of the paper.

2. How to limit wallpaper shrinkage:

Before, during and up to 24h after decorating, ensure there are no draughts or changes in temperature, air conditioning or direct heating anywhere near the paper.

3. We recommend you use our RESSOURCE paste specially designed for RESSOURCE wallpapers ensuring a perfect finish. This paste is 94% natural (corn starch and water) and contains no VOCs.

4. Remove glue residue:

This wallpaper can be cleaned with soapy water and a damp sponge, then dried with a soft microfiber cloth. Be sure to use only mild detergents to avoid damaging the wallpaper surface.

## HANGING AND APPLICATION INSTRUCTIONS

### 1 | Apply masking tape

Place the Arbre de Vie where you want it, using a spirit level to make sure it's straight.

Use a pencil to mark out its location, with markers at each of the 4 corners.

Once the location of the paper has been determined, place the masking tape outside the markers.

The masking tape marks the contours of the Arbre de Vie, allowing you to paste it to the wall without leaving any traces the wallpaper paste.

### 2 | Paste the wall

Using the roller, spread the paste evenly over the future location of the Arbre de Vie, inside the frame marked by the masking tape. Use the brush to apply the paste to the ends.

### 3 | Paste the decor

Roll up the paper with the motif on the inside, gradually unrolling it in line with the masking tapes, gently stroking the paper with your hands so that it sticks to the wall.

### 4 | Smooth the wallpaper

Gently roll the paper with clean, bare hands.

For even pasting, carefully sweep the entire surface, from top to bottom and inside to outside, to eliminate air bubbles.

If there are areas lacking paste, gently lift the paper and add more paste with the brush.

Finally, gently remove the masking tape.

### 5 | Paste the 2<sup>nd</sup> strip

Roll up the strip with the pattern on the inside. Position the roller on the top of the first strip, respecting the seam. Finally, gently remove the masking tape.
