CAUTION

We have chosen to use natural wallpaper made from cellulose fibres with no surface treatment after printing. We use water-based latexencapsulated ink which is certified for its low environmental impact.

Due to its environmental properties this deep matte paper needs to be handled with care:

1. How to prevent your paper from shining:

We recommend you use a smoothing brush carefully and work primarily with your hands for a softer touch. This will allow you to get a feel of the paper.

2. How to limit wallpaper shrinkage:

This non-woven paper is a living material composed of natural fibres. To ensure the paper adapts to the general humidity of the room, we recommend you take it out of its wrapping 24 hours before hanging. Before, during and up to 24h after decorating, ensure there are no draughts or changes in temperature, air conditioning or direct heating anywhere near the paper.

3. We recommend you use our RESSOURCE paste specially designed for RESSOURCE wallpapers ensuring a perfect finish. This paste is 94% natural (corn starch and water) and contains no VOCs.

4. How to avoid getting paste on your paper:

Wash your hands, your tools and sponge as soon as you get any paste on them. To remove wallpaper paste : use a damp and well-wrung sponge. Lightly wipe away without scrubbing or pressing down as this may cause the ink to run and the colors to fade.

- A tape measure
- A plumb line or spirit level
- A ruler
- A pencil
- Meticulously clean hands
- A clean sponge

HANGING AND APPLICATION INSTRUCTIONS

1 | Apply masking tape

Place the Arbre de Vie where you want it, using a spirit level to make sure it's straight.

Use a pencil to mark out its location, with markers at each of the 4 corners.

Once the location of the paper has been determined, place the masking tape outside the markers.

The masking tape marks the contours of the Arbre de Vie, allowing you to paste it to the wall without leaving any traces the wallpaper paste.

2 | Paste the wall

Using the roller, spread the paste evenly over the future location of the Arbre de Vie, inside the frame marked by the masking tape. Use the brush to apply the paste to the ends.

3 | Paste the decor

Roll up the paper with the motif on the inside, gradually unrolling it in line with the masking tapes, gently stroking the paper with your hands so that it sticks to the wall.

4 | Smooth the wallpaper

Gently roll the paper with clean, bare hands.

For even pasting, carefully sweep the entire surface, from top to bottom and inside to outside, to eliminate air bubbles.

If there are areas lacking paste, gently lift the paper and add more paste with the brush. Press gently with your finger all around to ensure that the paper is flush with the wall.

Finally, gently remove the masking tape.
